

Sales KPI Dashboard – Excel Project

Created By : Pranjal Jadhav

Project Overview

Dynamic KPI
dashboard with
quarter switching

1

Covers Revenue,
Customers, CAC &
Target achievement

2

Includes previous
year comparison

3

Built fully in Microsoft
Excel

4

Problem Statement

Management needs a single consolidated KPI view

Quarter-wise performance analysis

Actual vs Target tracking

Customer & CAC performance monitoring

Data Preparation

01

Synthetic
dataset
prepared for
4 quarters

02

Revenue,
Targets,
Customers,
CAC values

03

Employee-
wise monthly
breakdown

04

Used SUM,
SWITCH, and
data
validation
dropdown

Quarter Switching Logic

- Quarter selected using Data Validation dropdown
- Active Table updates automatically
- Key formula used

SWITCH(\$E\$5,\$H\$1,C30,\$H\$2,C41,\$H\$3,C52,\$H\$4,C63)

KPI Calculations

- **Total Revenue per Year = SUM of all quarter totals**
- **Total Customers per Year = SUM of all months**
- **Revenue per Customer = Revenue / Customers**
- **Target Achievement = Actual / Target**

Dashboard Overview

KPI Overview

Q1 2024

Revenue Compared per year
